

## SAFETY DATA SHEET

### 01. IDENTIFICATION

NAME OF PREPARATION OR SUBSTANCE:

SUPPLIER NAME:

SUPPLIER ADDRESS:

TELEPHONE NUMBER:

RECOMMENDED USE:

SAFFRON OIL

Indira Imports. LLC

27 E 11th Street. Los Angeles,

CA-90015

2137494449

Cosmetics and Personal Care Formulation

### 02. HAZARD IDENTIFICATION

Physical hazards:

Health hazards:

Environmental hazards:

Hazard(s) not otherwise  
classified (HNOC):

Supplemental  
information:

Not classified.

Not classified.

Not classified.

None known.

100% OF THE SUBSTANCE CONSISTS OF COMPONENT(S) OF UNKNOWN ACUTE ORAL TOXICITY. 100% OF THE SUBSTANCE CONSISTS OF COMPONENT(S) OF UNKNOWN ACUTE DERMAL TOXICITY. 100% OF THE SUBSTANCE CONSISTS OF COMPONENT(S) OF UNKNOWN ACUTE INHALATION TOXICITY. 100% OF THE SUBSTANCE CONSISTS OF COMPONENT(S) OF UNKNOWN LONG-TERM HAZARDS TO THE AQUATIC ENVIRONMENT.

### 03. COMPOSITION/INFORMATION ON INGREDIENTS

Substances

Substances	CAS number	EINECS number	%
Organic Argan Oil	8745-98-1	254-65-0	10
Saffron Oil	6412-32-0	325-024-2	30
Saff Flour	3214-65-1	307-12-0	10
Sweet Almond Oil	5214-25-2	147-12-1	50

Allergens substance in accordance with  
2003/15/CEE Directive 7th amendment

None known.

### 04. FIRST-AID MEASURES

Inhalation

If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing.  
For breathing difficulties, oxygen may be necessary.  
Call a physician if symptoms develop or persist.

Skin contact	Take off immediately all contaminated clothing. Get medical attention if irritation develops and persists. Wash skin thoroughly with soap and water for several minutes.
Eye contact	Remove contact lenses, if present and easy to do. Get medical attention if irritation develops and persists. Promptly wash eyes with plenty of water while lifting the eye lids.
Ingestion	Call a physician or poison control center immediately. If swallowed, rinse mouth with water (only if the person is conscious). Do not induce vomiting. If vomiting occurs, the head should be kept low so that stomach vomit doesn't enter the lungs.
Most important	Direct contact with eyes may cause temporary irritation.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to

## 05. FIRE-FIGHTING MEASURES

Suitable extinguishing media:	Water spray, fog, CO <sub>2</sub> , dry chemical, or alcohol resistant foam.
Unsuitable extinguishing media:	Do not use a solid water stream as it may scatter and spread fire.
Specific hazards arising from the chemical:	Fire may produce irritating, corrosive and/or toxic gases.
Special protective equipment and precautions for firefighters:	Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Structural firefighters protective clothing will only provide limited protection. Wear self-contained breathing apparatus with a full facepiece operated in the positive pressure demand mode when fighting fires.
Fire fighting equipment/instructions:	In case of fire and/or explosion do not breathe fumes. Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. Water runoff can cause environmental damage. Ventilate closed spaces before entering them. Keep run-off water out of sewers and water sources. Dike for water control.
Specific methods:	Use water spray to cool unopened containers.
General fire hazards:	Static charges generated by emptying package in or near flammable vapor may cause flashfire.

## 06. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective  
equipment and emergency  
procedures:

Methods and materials for  
containment and cleaning up:

Eliminate all sources of ignition. Avoid contact with skin or inhalation of spillage, dust or vapor. Keep unnecessary personnel away. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Collect and dispose of spillage as indicated in section 13 of the SDS.

Absorb with inert absorbent such as dry clay, sand or diatomaceous earth, commercial sorbents, or recover using pumps.

The product is immiscible with water and will spread on the water surface.

Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible.

Never return spills in original containers for re-use. This material and its container must be disposed of as hazardous waste. Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Prevent product from entering drains.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Environmental precautions:

Retain and dispose of contaminated wash water. Avoid release to the environment. Contact local authorities in case of spillage to drain/aquatic environment. Prevent further leakage or spillage if safe to do so. Do not contaminate water.

## 07. HANDLING AND STORAGE

Precautions for safe handling:

Do not handle or store near an open flame, heat or other sources of ignition. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Avoid breathing vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Wash thoroughly after handling.

Conditions for safe storage,  
including any incompatibilities:

Keep container closed. Handle containers with care. Open slowly in order to control possible pressure release. Store in a cool, well-ventilated area.

## 08. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational exposure limits:

This substance has no PEL, TLV, or other recommended exposure limit.

Biological limit values:

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls:

Use explosion-proof ventilation equipment to stay below exposure limits. Adequate ventilation should be provided so that exposure limits are not exceeded.

## 09. PHYSICAL AND CHEMICAL PROPERTIES

Appearance:

Golden to reddish orange colored liquid

Odor:

Characteristic deep, musky, earthy aroma

pH:

Not available.

Melting point/freezing point:

Not available.

Initial boiling point and boiling range:

Not available.

Flash point:

> 484.0 °F (> 250.0 °C) Closed Cup

Evaporation rate:

Not available.

Flammability (solid, gas):

Not applicable

Vapor pressure:

Not available.

Refractive Index:

1.454 - 1.490 @ 20°C

Relative density:

0.900 - 0.924 @ 20°C

Solubility in water:

Insoluble.

Auto-ignition temperature:

Not available.

Decomposition temperature:

Not available.

Viscosity:

Not available

## 10. STABILITY AND REACTIVITY

Reactivity:

The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability:

Material is stable under normal conditions.

Possibility of hazardous reactions:

No dangerous reaction known under conditions of normal use.

Conditions to avoid:

Avoid temperatures exceeding the flash point. Contact with incompatible materials.

Incompatible materials:

Strong oxidizing agents.

Hazardous decomposition products:

No hazardous decomposition products if stored and handled as indicated.

## 11. TOXICOLOGICAL INFORMATION

Inhalation:

Knowledge about health hazard is incomplete.

Skin contact:

Knowledge about health hazard is incomplete.

Eye contact:

Knowledge about health hazard is incomplete.

Ingestion:

Expected to be a low ingestion hazard.

## 12. ECOLOGICAL INFORMATION

Ecotoxicity:

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability:

No data is available on the degradability of this substance.

Bioaccumulative potential:

No data available.

Mobility in soil:

No data available.

Other adverse effects:

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

## 13. DISPOSAL CONSIDERATIONS

Disposal instructions:

Do not discharge into drains, water courses or onto the ground. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal regulations:

Dispose in accordance with all applicable regulations.

Hazardous waste code:

Not established.

Waste from residues / unused products:

Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging:

Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

## 14. OTHER INFORMATION

Disclaimer:

Indira Imports cannot anticipate all conditions under which this product or others used with it may be handled. Users are responsible for ensuring safe handling, storage, and disposal, and assume liability for any loss, injury, or damage from improper use. This information applies only to this product and is intended as general guidance, not a guarantee or specification. Final safety assessment is the buyer's responsibility. Data is based on sources believed to be reliable. Proper warnings and handling procedures must be followed in line with all applicable laws and conditions of use.
